

AS-A275i

Forget about the holders for charging your iPod or iPhone. Forget about the many cables for connecting your set up to your stereo or home entertainment system. Wherever you want to listen to music – your living room, bedroom, kitchen, office or shop – the new AS-A275i provides you with endless versatility. It is an all-in system with iPod-dock, built-in tuner and remote control. Just sit yourself down: not only are the loudspeakers a real eye-catcher, the sound quality also provides unrivalled hi-fi superiority. This is not a dock with a built-in speaker, but an active speaker with a built-in dock!
